## Submittal

R2K 24 is a premier premix gas-fired condensing combination boiler that complies with ANSI Z21.13 and CSA 4.9 GAS FIRED LOW PRESSURE STEAM AND HOT WATER BOILERS. The R2K 24 is equipped with Radiant's Combi-Tech® stainless steel heat exchanger that consists of a single tube coil with a diameter of 28 mm. This larger coil tube reduces the pressure drop across the heat exchanger, and prevents debris/limestone deposits and makes it much easier on maintenance. The R2K 24 model features a 1:9 air/gas modulation which is important for energy savings and prevents frequent cycling of the boiler.
